

The Kassia Academy and Support Services (TKAS)

Part of **KINGS ACADEMY TRUST**

CAREERS NEWSLETTER

At Kassia, our aim is to provide every learner with the knowledge and skills needed for transitioning onto their next steps after leaving our school. We aim to strengthen and build learners confidence, whilst equipping them with the skills they need to be successful once they leave school.

Each year, The Kassia Academy aims to provide experiences for all of our learners to interact with a range of local providers and businesses to hear about career opportunities. We do this by taking part in events, visits, assemblies, guest speakers and group discussions.

As a school we also work closely with our schools designated local authority Careers Advisor Joanna Cunliffe. Joanna's role within The Kassia Academy is to ensure that all our Year 11 learners have support and guidance when applying for further education.

Miss Danielle Proctor
Careers Lead

KS3

This term, our KS3 learners have been enjoying following the skills builder programme.

Each term we focus on one out of eight skills. This term we focused on listening.

We then adapt these different skills into our school life which will then support our learners with their future by being aware of the key skills employers will look for.

KS3 have met with employees from the Phoenix Boxing Club and now understand the role of a Personal Trainer while also participating in some 1:1 boxing training.

KS3 students also had the chance to carry out work experience in our own school kitchen, preparing and serving some amazing vegetable soup. During their time in the kitchen, they also learnt about health and safety and healthy eating

KS4

This term, our KS4 learners have continued working alongside 'For Housing', 'Head Start' and Animal Care. Our learners have been carrying out work experience at Hayley little hero's, a local nursery in Warrington and a charity shop based in Manchester.

Our KS4 learners have experienced a day trip to the airport where they were able to board a plane and learn about all the different careers in the Travel and Tourism sector.

The time has come again for us to say good bye to our Year 11 learners. The Kassia Academy would like to wish you good luck with your GCSE results and for the future.
